

What Will My Child Learn?

WEDNESDAY

Infant Activity

Big foot, Little foot! When your baby is sitting on the floor or laying on their back, place your foot next to their foot. Talk to them about your foot being so big and their foot being so little. What else is little and big? Put their clean socks on the floor with your clean socks. Have baby explore and see if they can find which ones are big socks for big feet or little socks for little feet.

Toddler Activity

Taste safe muddy dinosaur sensory Bin.

Materials: Cornmeal or corn starch, drinking chocolate or cocoa powder container, spoon, dinosaurs + water.

Directions: Mix the ingredients together and add the dinosaurs.
