

What Will My Child Learn?

## THURSDAY

### *Infant Activity*

Create a gardening sensory bin with flowers and dirt for your child explore . Have them feel the textures of the items.

Each day of the week add a new item to your bin for your child to explore.

Examples: flowers, dirt, seeds, shovel, vegetables

### *Toddler Activity*

Collect as many flowers as you can, if you can't find flowers, collect leaves, or twigs.

Then count everything you've collected, separate the petals from the flowers or the the twigs from the leaves.

If you have flower petals you can separate them by color!

### *Preschool Activity*

Locate all the vegetables in your house. Sort them into shapes and colors.

How many do you have of each?

How many do you have all together?
