## Math/Science

**Standards:** Math: Attributes, Sorting, and Patterns. Science: Investigating and Using Evidence cause and effect

**Cloud Dough for Toddlers:** It's like being at the beach without having to leave the house. All you need is a bag of flour and a small bottle of vegetable oil. You can make more, of course, just by doubling the ratio.

- Put all of the flour in the box and then add the oil little by little while mixing it into the flour using your other hand.
- Keep adding until you get a fun texture with a consistency similar to sand. Loose, yet a little sticky.
- Throw in some spoons, small bowls and muffin tins and you are set!

I promise you will be able to get some things done around the house because your little one will be engaged for a long time!
