## Math/Science

**Standards:** Math: Attributes, Sorting, and Patterns. Science: Investigating and Using Evidence cause and effect

**Water Play for Toddlers:** This one is so simple to set up and is always engaging for the little ones.

- Fill your box about  $\frac{1}{4}$  full with water.
- Add some drops of food coloring for a little extra fun.
- Then add any fish or animals you may have and some rocks, sifters, small bowls and funnels. Let them explore.

There are many variations to this one. For instance, you can get some toys, dolls or animals “dirty” with some shaving cream or whipped cream, add brushes and let them wash the toys with sponges and rags.

You can add recycled lids to the water bin or maybe cut up straws. With this one there is no wrong, anything goes!
